Subject: RE: Public Consultation on Proposed Governance Arrangements for Telecommunications Numbering and Draft Code (NAR)

Hi Anna

Our facilitators and I have read the correspondence, including the Draft Code for Number Management, with interest.

Thank you for drawing this matter to our attention, and for the opportunity to make submissions.

While it is important for TDR to be aware of the development of the Code, we have not received any complaints requiring direct consideration of the issues addressed. TDR is therefore unable to make a contribution of any value by way of submissions.

Regards
Derek
